

LED STRIP · EMUCA LYNX PREMIUM

Lynx Premium COB LED Strip, 9.6 W/m

A continuous-line COB LED strip with 480 LEDs per metre, so there are no visible dots. Sold cut to length per metre from the reel.

CUT TO LENGTH

VOLTAGE

24 V DC

POWER

9.6 W/m

LEDs

480 per m

EFFICACY

105 lm/W

BEAM

120°

CUT EVERY

55.5 mm

Specification

2700K warm white	EM-5225720 · 1,015 lm/m	Supply	24V DC constant voltage
4000K natural white	EM-5225620 · 1,112 lm/m	Max per feed	72 W (3 A)
6000K cool white	EM-5225520 · 1,152 lm/m	Protection	IP20, indoor
Strip width	8 mm	Connection cable	Lynx Z, 1.5 m, EM-5207920
Type	COB on double-layer PCB	Lynx Z rating	Max 72 W at 24V
Adhesive	3M 300LSE	Standards	EN 60598 · LVD · EMC · RoHS
Dimmable	Yes, with a dimming control	Sold as	Per metre, cut from 50 m reel

Ideal for

Kitchen plinths

Under-cabinet lighting

Shelf edges

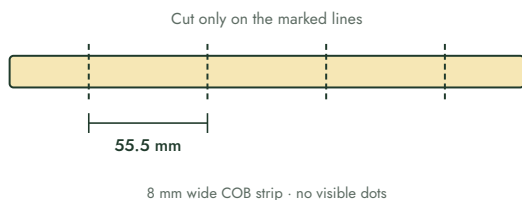

Wardrobes

Coves

Display cases

Cutting

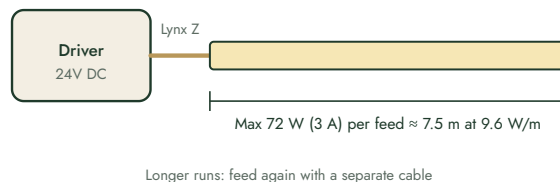

Marked cut points

Cut only on the marked lines, every 55.5 mm.
Connect with a Lynx Z cable made for 8 mm strips.

Run length

One feed from the driver

9.6 W/m × length must stay within 72 W per feed (≈ 7.5 m). Size the driver at about 80% load.

Fitting in six steps

- 01 Measure**
Measure the run and work out the watts (9.6 W per metre).
- 02 Choose a driver**
Pick a 24V SMART driver with about 20% spare capacity.
- 03 Cut the strip**
Cut on the nearest marked line.
- 04 Clean the surface**
Clean and dry the surface or aluminium profile.
- 05 Stick it down**
Peel the 3M backing and press the strip firmly in place.
- 06 Connect**
Fit the Lynx Z cable, plug into the driver and test.

Good to know

- Fit in an aluminium profile for the best heat transfer and finish.
- Do not bend sharply across the width.
- Indoor, dry locations only (IP20).
- COB gives a smooth line of light, even in shallow profiles.
- Long runs: feed power again with a second cable.
- Use 24V drivers only.

Choose your colour

Sold per metre in three colour temperatures, plus the Lynx Z connection cable.
