Where each type goes

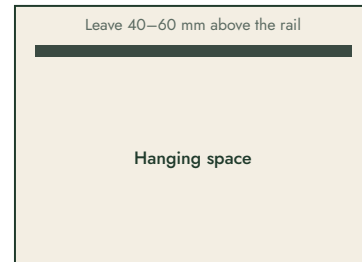

Front view of a two-section wardrobe

Closed supports at the two outer ends. **Open supports** on a centre panel so one rail passes through.

Rail height

Typical hanging height

Keep both supports at exactly the same height so the rail sits level.

Fitting in six steps

- 01 Mark the height**
Mark the rail height level on each panel, centred front-to-back.
- 02 Pilot drill**
Drill small pilot holes for the support screws.
- 03 Fix the first support**
Screw the first support in place.
- 04 Offer the rail**
Fit the rail into the first support and slide the second onto the other end.
- 05 Fix the second**
Level and screw the second support.
- 06 Check**
The rail should be level and firm with no rattle.

Good to know

- Use open supports on centre panels for long runs.
- Fix into solid board.
- Check heights with a level before fixing.
- Matching colours for ELITE rails.
- Wipe with a damp cloth.
- Sold as a pair.
