Fits	GTV Silento Pro hinges	Use with	Full overlay and inset hinges

Ideal for

Replacing damaged plates

Re-hanging doors

New carcasses

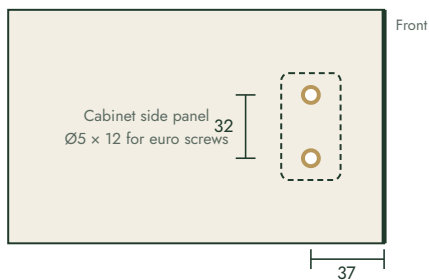

Kitchen units

Wardrobes

Bathroom cabinets

Fixing the plate

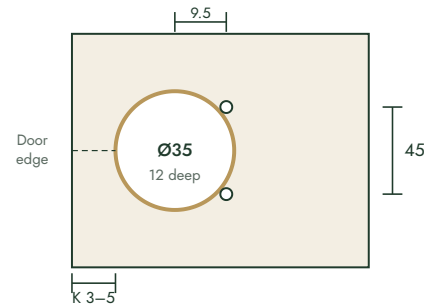

Inside of the cabinet side

Holes 32 mm apart, 37 mm back from the front edge.
Drill $\varnothing 5 \times 12$ mm for the euro screws.

Matching hinge cup

Inside face of the door

$\varnothing 35$ mm cup, K = 3–5 mm. With H0 plates, full overlay is 15–17 mm.

Fitting in six steps

- 01 Remove the old plate**
Unclip the door, then unscrew the old plate from the cabinet side.
- 02 Check the holes**
Reuse 5 mm system holes, or drill new ones 32 mm apart and 37 mm from the front edge.
- 03 Fix the new plate**
Push the euro screws into the holes and tighten.
- 04 Clip the door on**
Hook the hinge arm over the front of the plate and press the back until it clicks.
- 05 Adjust the door**
Set side, height and depth with the hinge and plate screws.
- 06 Check the gaps**
Open and close – the soft close should engage evenly on every hinge.

Good to know

- Use H0 plates to keep the overlay figures on the hinge data sheet.
- Do not overtighten euro screws in chipboard.
- Change both plates on a door at the same time.
- Suits Silento Pro full overlay and inset hinges.
- Black plates match black hinges in dark interiors.
- Keep spare plates for future repairs.

Finishes

Nickel or black, in packs of 10.

Nickel Black

SCAN TO ORDER
